APA Analysis

Achieve	Preserve	Avoid

1. For each component of your vision, take some time to brainstorm a list of what you sense God is calling you to **achieve**. This is the heart of your vision.
2. For each component of your vision, reflect on your past experience and write down what you would like to **preserve** and **avoid** as you carry out your vision.
3. Take time to pray through your APA and write a paragraph that paints a picture of what you hope to accomplish.
